Subject: Cat Canyon checklist and questions

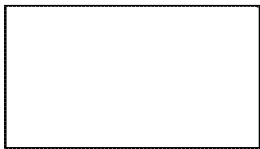

Hi Michele, Calvin, and Kyle,

Attached are the checklist and our draft questions for DOGGR about the Cat Canyon Oil Field. This is based on our review of the AE application dated October 2017 (and shared with EPA on October 30, 2018) and the August 3, 2018 correspondence with the State WB and CVRWQB.

Note that the application included several lengthy attachments (e.g., hundreds of pages of water quality analytical reports, well histories, water well completion reports, and well logs). We did not review these in detail, but their inclusion in the application package is noted in the attached.

Please let me know if you have any questions or would like to discuss this.
